## Resource Conservation Policy

Jesons industries Limited is committed towards adopting sustainable development practices. Protection of the environment, ecology as well as biodiversity are extremely important considerations for us in the conducting of our business.

We are focused on conservation of natural resources. The Objective of this policy is to provide a framework for evaluation & improvement, in our methods for use of resources in the manufacturing process.

### The Policy is as follows:

- To comply with all statutory compliances with respect to usage of natural resources.
- To use our R&D (Tech Centre) to develop products which minimize use of natural resources in the manufacturing process.
- To adopt 3 R practices: REUSE, REFUSE AND RECYCLE in our manufacturing process.
- Practices Judicious way of conserving energy in every stage (Energy efficient motors & LED lamps, Switch-off the lights) and explore use of renewable energy in our operations.
- To recharge ground water through rainwater harvesting.
- Define goals, targets, and action plans to reduce consumption of natural resources.
- To create awareness about natural resources and their importance among our internal as well as external stakeholders.

This policy will be reviewed on an annual basis.
